JUDGE 1	COMPLEXITY OF SMILE LINE Consistent smile-line shape on all 5 nails, evenly applied so tips match, with no shadows, dips, pits, cloudiness, marbling or waves. The line must be clean, sharply defined and evenly curved, marking the division between pink & white.	20	
		20	
JUDGE 2	C-CURVE C-ARCH (TUNNEL VIEW) The C-curve should follow the shape of the nail down its entire length in convex & concave, forming the C-arch (tunnel view). It must be symmetrical & even on all fingers and measure 30–50% of a circle on all 5 nails, with a higher degree of difficulty at 50%. Don't mix—choose one percentage consistently.	20	
JUDGE 2	APEX The high point of the apex & arch must be consistently and correctly placed on each nail. It must not be overly pronounced and should be elegant, even & consistent. From the side, the apex should be between 25% & 50% of the entire nail bed. Don't mix—choose one.	20	
JUDGE 2	HAIR LINE & FREE EDGE THICKNESS The nails must be consistently thin throughout, uniformly thin on each nail & no thicker than a business card. Thickness will be considered in the degree of difficulty, with thinner & consistent work being more difficult.	20	
		60	
JUDGE 3	UPPER ARCH – UPPER SIDE LINE (TOP & SIDE VIEW) From the side profile, the upper arch extension must be parallel to the lower arch & even on all 5 nails. From the top, side lines must not be wider than the natural nail lateral side lines or filed away. Side lines may extend straight or slightly tapered—don't mix; choose one.	20	
JUDGE 3	LOWER ARCH / LOWER SIDE LINE (SIDE VIEW) Lower side lines should be even, neat & extend straight from the lateral fold on both sides. They must be parallel to the upper arch from the side, with no steps or ridges. Viewed from the hair line/C-curve, they should end at the same height.	20	
		40	
JUDGE 4	NAIL LENGTH Length must be consistent & proportionate to the hand and all 5 fingers. The pinkie must be shorter than the ring & index fingers; the ring & index must be shorter than the middle finger & thumb. Extension length is the competitor's choice and must be 60–80% of the nail bed.	20	
JUDGE 4	NAIL SHAPE Shape must be consistent & uniform from above and from the model's perspective. Only square (90-degree angle from the side) or squoval (75-degree angle from the side) is allowed. Choose one—don't mix.	20	
		40	
JUDGE 5	CUTICLE AREA No cuts or irritation around the skin. Points are deducted for damage. Product application must be even, with no ledge or missing product. The enhancement should look and feel as though it grew off the finger.	10	
JUDGE 5	FORM FIT PRODUCT RESIDUE An exact fit of the sculpting form or tips is required. With tip application, the contact area must blend to transparency. There must be no adhesive residue, file dust or polish beneath the enhancement and no injury to the surrounding soft tissue.	10	
JUDGE 5	FINISH HIGH SHINE Index, middle & ring fingers must have a high shine across the entire convex surface, with no file scratches, matte spots or unevenness. Use a high-shine buffer only; top gel or polish top coat is not allowed. Nails must have a smooth, glass-like finish.	10	
		30	
JUDGE 6	WHITE EXTENSION / APPLICATION OF WHITE Even product application from smile line to free edge, with no bubbles or pits and consistent across all 3 nails. No pink or clear product on the white extension.	10	
JUDGE 6	NAIL BED / APPLICATION OF PINK/CLEAR/CAMOUFLAGE Even product application with no shadows, bubbles, dips, pits, cloudiness or marbling, consistent across all 3 nails. Blend well towards the cuticle. Choose transparent pink, clear and/or camouflage consistently on all 3 nails. The nail-bed colour must complement the skin tone.	10	
		20
